We are looking for a new colleague to join our team of software engineers, filling the position of

Front-end Developer – Angular

As our next Front-end Developer, you will play an important role in our current and future projects for one of our main customers, a worlwide player in technology. You will be part of a team that delivers customized software solutions to manage a wide range of applications from manufacturing to supply chain and tech support.

You will start with a comprehensive training phase and an assisted familiarization period and then you will have the following responsibilities:
- Analyze and document client technical specifications in order to translate them into functional front-end code with Angular;
- In collaboration with the team, design and develop user interfaces for web-based applications;
- Ensure 1st level of communication with the customer on regular basis and whenever required (address and resolve any necessary requests);
- Work with the team to provide the best user experience for the developed applications.

Skills and qualifications
- Completed technical education in the field of software development;
- Previous experience in front-end development, with a min of 6 months of developing with Angular framework;
- Proficient in JavaScript;
- Knowledge of Rest API;
- Experience with version control systems (Git);
- Nice to have stack: TypeScript, SCSS, Docker/Kubernetes;
- Good communication and interpersonal skills.

Why working with Elysian Software?
Elysian Software is a Romanian software development company that provides software consultancy to clients spread over 4 continents and from over 10 different industries (logistics, automotive, access control, retail, manufacturing, pharmaceutical, etc.).

Our team of over 30 experts with more than 15 years of experience in the field is here for both early-stage companies and corporations. We are guided by our values and mission to become the most valued strategic and technology partner and to be tightly integrated into the client's in-house operations.

We are also a fun company. Yes, everybody says that. You'll have to meet us and see for yourself.

What we offer:
In addition to the company and support of some fine colleagues for both coffee and problems, we also offer:
- Competitive salary and performance bonus;
- Pleasant work environment with global exposure;
- Professional and personal growth: access to technical and vocational development courses;
- Private medical insurance;
- Central location with safe parking space for bikes, and a nice garden for coffee breaks;
- Work-life balance: sports activities subscription, working from home policy, schedule flexibility, team building, bookster subscription and fun team activities;

Curious enough? Want to meet with us? Send us your CV to raluca.truca@elysian-software.com.
By sending your CV, you automatically agree with the GDPR policy, and your contact details will be stored and used only for the duration of this recruitment process. If you would like us to keep your CV for future opportunities, please write so in the email with your application.
